

FARMERS' WAY OF RAISING CAMPAIGN FUNDS CRITICISED

Heated Discussion on One of the Clauses in the New Franchise Act

Ottawa, April 13.—Consideration of the clause of the new Franchise Act restricting contributions to political campaigns, together with discussion of the methods adopted by the Farmers' party to raise money for their campaign, occupied the session of the House of Commons today.

While the clause in itself was of greatest importance, the fact that several criticism of it was expected to come from the Farmers' group resulted in heated discussions.

During the afternoon the House and galleries were almost empty; at night, however, when the fireworks occurred, the members in the city were nearly all present, and the galleries were exceptionally good-natured, and there was a laugh at the remarks between Unionist and Farmer members.

The clause as proposed and as amended, declared that no unincorporated company or association should be incorporated for political purposes.

Mr. B. McArthur's amendment proposed to limit contributions to individuals, stipulating that no one should be allowed to give more than \$10,000.

He also proposed that the source and amount of contributions should be published in The Canada Gazette and the press.

THE REMAINING ASSENT VOTERS

The remaining no-contest clauses of the bill occupied the attention of the House for two and a half hours before they, as well as the amendments, were passed.

Following suggestions that instead of holding a vote on the bill, it would be better to have a vote on the amendments, Mr. D. B. McArthur proposed that the House should vote on the amendments.

He did not intend any imputation on Mr. Gould, but it seemed to him that the hon. member and his friends had got into the hands of some expert political managers. Mr. Mowat believed Mr. Gould thought the new party was superior, both morally and mentally, to the party which had been in power. Mr. Gould showed that his personal expenses as a candidate were \$255.35. In answer to a question he admitted that under the initiative and recall plank of the platform he was subject to recall. He explained that the source of the same should be published. Mr. Gould denied that the water quoted was not written by a Grain Grower, as alleged. included all money actually spent on an election. Dr. J. W. Edwards, Pontiac, said the systematic collections had been made by the "Holler Tons" party.

"Does he (Mr. Gould), at all here as an elected representative of the people of the Dominion of Canada or does he sit here as the elected representative of a group of men who are interested only in their own pockets?" asked Dr. Edwards.

"What would happen if he had that in force in every constituency?" "We would have an election," said Mr. J. A. Maharg of Maple Creek, amid laughter.

Mr. Edwards proceeded to prophesy that after the next general election there would be a large number of members present. Referring to a statement made by the Farmers' party that it would have had its own candidate elected, Mr. Edwards said it would have had its own candidate elected.

On Tuesday, April 18, the same day that the Ontario Industrial Hygiene Association was removing women from the list of industrial workers, and for paying greater attention to industrial hygiene, was brought to the attention of the Ontario Safety League at their annual meeting yesterday by Dr. W. S. McCullough, of the Provincial Department of Health.

In touching the question of women workers, Dr. McCullough stated that women must be kept out of the factories. He deplored the low birth rate and the high death rate among infants, and the cause of this he attributed to women working in factories.
